## **Tax Accounting Abbreviated Course Syllabus**

Course Number: AB109A

<u>Course Name:</u> Tax Accounting

<u>Instructors:</u> Liu Yongli, Zhao Xin, Xie Qing, Pan Guangwei, Cheng

Huijie

Students: Accounting AY 2019; Financial Managemen

<u>Required Text:</u> 1. Tax Accounting, Lixin Accounting Publishing

House, Su Xilan. 2019

2. Tax Accounting, China Renmin University Press

Gai Di, 2022

3. Tax Accounting and Tax Planning, China Renmin

University Press, Gai Di, 2021

**Course Description:** 

Tax accounting is a professional accounting profession that uses the current tax laws and regulations as the benchmark, applies accounting theories and techniques, and integrates methods from other disciplines. It continuously, systematically, and comprehensively reflects, supervises, and plans taxpayers' tax activities in the form of monetary valuation, in order to pay taxes correctly, timely, in full, and economically, and provide this information to taxpayers' management and tax authorities. This course is designed from the perspective of taxpayers, mainly studying, and dealing with various fund movements caused by taxpayers' tax related matters. Therefore, through the study of this course, it is necessary to proficiently grasp the basic concepts and theories of tax accounting, tax basic knowledge and legal systems, as well as the main content of various entity tax laws, accurately calculate the tax payable and carry out tax accounting processing. In addition, cultivate awareness of paying taxes in accordance with the law, conscientiously fulfill tax obligations, fully exercise taxpayer rights, and enjoy tax preferential policies.

Topic Outline: Hours/Minutes

I. Introduction to tax accounting

8

A. The characteristics and classification of taxation

- ①The concept of taxation
- (2) Characteristics of taxes
- (3) The functional role of taxation
- (4) Classification of taxes
- B. The tax system and its constituent elements

①Tax registration ②Tax returns ③Tax collection and payment ④Tax checks ⑤Violation handling  D. Characteristics and models of tax accounting ①The emergence and development of tax accounting ②The concept and characteristics of tax accounting ③Objects and tasks of tax accounting ④The relationship between tax accounting ⑤Model of tax accounting ⑥Tax accounting ⑥Tax accounting A. VAT overview ①The concept and characteristics of VAT ②Taxpayers of VAT ③The scope of VAT collection ④The rate and rate of VAT levied ⑤VAT reduction and exemption ⑥VAT collection and management ⑦Use and management of special VAT invoices		②Elements of the tax system
	C.	①Tax registration
Siviolation handling  D. Characteristics and models of tax accounting  ①The emergence and development of tax accounting  ②The concept and characteristics of tax accounting  ③Objects and tasks of tax accounting  ④The relationship between tax accounting and financial accounting  ⑤Model of tax accounting  ⑥Tax accounting documents, Bookkeeping management  II. VAT accounting  A. VAT overview  ①The concept and characteristics of VAT  ②Taxpayers of VAT  ③The scope of VAT collection  ④The rate and rate of VAT levied  ⑤VAT reduction and exemption  ⑥VAT collection and management  ⑦Use and management of special VAT invoices  B. VAT calculation and tax declaration  ①The method of calculating VAT  ②Calculation of tax payable under the general tax calculation method  ③Calculation of tax payable under the withholding method  ⑤Calculation of tax payable on imported goods  ⑥Tax declaration of VAT  C. The basis of VAT accounting  ①Setup of general taxpayer VAT ledger accounts  ②The setup of the general taxpayer's "Tax payable - VAT payable" detailed account  ③Setup of small-scale taxpayer ledger accounts  D. Accounting Treatment of VAT input Tax and its transfer out  ①Accounting for input VAT amounts  ②Accounting treatment of VAT output tax  ①Accounting treatment of VAT output tax  ①Accounting treatment of VAT output tax  ①Accounting for changes in input tax deductions		③Tax collection and payment
D. Characteristics and models of tax accounting  ①The emergence and development of tax accounting ②The concept and characteristics of tax accounting ③Objects and tasks of tax accounting ④The relationship between tax accounting and financial accounting ⑤Model of tax accounting ⑥Tax accounting documents, Bookkeeping management  II. VAT accounting A. VAT overview ①The concept and characteristics of VAT ②Taxpayers of VAT ③The scope of VAT collection ④The rate and rate of VAT levied ⑤VAT reduction and exemption ⑥VAT collection and management ⑦Use and management of special VAT invoices  B. VAT calculation and tax declaration ①The method of calculating VAT ②Calculation of tax payable under the general tax calculation method ③Calculation of tax payable under the withholding method ⑤Calculation of tax withheld under the withholding method ⑤Calculation of tax payable on imported goods ⑥Tax declaration of VAT  C. The basis of VAT accounting ①Setup of general taxpayer VAT ledger accounts ②The setup of the general taxpayer's "Tax payable - VAT payable" detailed account ③Setup of small-scale taxpayer ledger accounts  D. Accounting Treatment of VAT input Tax and its transfer out ①Accounting for input VAT amounts ②Accounting treatment of VAT output tax ①Accounting treatment of VAT output tax ①Accounting treatment of VAT output tax ①Accounting for output tax under the general sales method ②Accounting for output tax under the general sales method		4)Tax checks
①The emergence and development of tax accounting ②The concept and characteristics of tax accounting ③Objects and tasks of tax accounting ④The relationship between tax accounting and financial accounting ⑤Model of tax accounting ⑥Tax accounting documents、Bookkeeping management  II. VAT accounting  A. VAT overview ①The concept and characteristics of VAT ②Taxpayers of VAT ③The scope of VAT collection ④The rate and rate of VAT levied ⑤VAT reduction and exemption ⑥VAT collection and management ⑦Use and management of special VAT invoices  B. VAT calculation and tax declaration ①The method of calculating VAT ②Calculation of tax payable under the simplified tax calculation method ③Calculation of tax withheld under the withholding method ③Calculation of tax payable on imported goods ⑥Tax declaration of VAT  C. The basis of VAT accounting ①Setup of general taxpayer VAT ledger accounts ②The setup of the general taxpayer's "Tax payable - VAT payable" detailed account ③Setup of small-scale taxpayer ledger accounts  D. Accounting Treatment of VAT input Tax and its transfer out ①Accounting for input VAT amounts ②Accounting for changes in input tax deductions  E. Accounting treatment of VAT output tax  ①Accounting treatment of vatoutput tax under the general sales method ②Accounting for output tax under the advance receipts method		⑤Violation handling
②The concept and characteristics of tax accounting ③Objects and tasks of tax accounting ④The relationship between tax accounting and financial accounting ⑤Model of tax accounting ⑥Tax accounting documents、Bookkeeping management  II. VAT accounting  A. VAT overview ①The concept and characteristics of VAT ②Taxpayers of VAT ③The scope of VAT collection ④The rate and rate of VAT levied ⑤VAT reduction and exemption ⑥VAT collection and management ⑦Use and management of special VAT invoices  B. VAT calculation and tax declaration ①The method of calculating VAT ②Calculation of tax payable under the general tax calculation method ③Calculation of tax payable under the withholding method ③Calculation of tax payable on imported goods ⑥Tax declaration of VAT  C. The basis of VAT accounting ①Setup of general taxpayer VAT ledger accounts ②The setup of the general taxpayer's "Tax payable - VAT payable" detailed account ③Setup of small-scale taxpayer ledger accounts ②The scup of the general taxpayer ledger accounts ②The accounting Treatment of VAT input Tax and its transfer out ①Accounting for input VAT amounts ②Accounting freatment of VAT output tax ①Accounting treatment of VAT output tax ①Accounting treatment of output tax under the general sales method ②Accounting for output tax under the advance receipts method	D.	Characteristics and models of tax accounting
3 Objects and tasks of tax accounting 4 The relationship between tax accounting and financial accounting 5 Model of tax accounting 6 Tax accounting documents, Bookkeeping management  II. VAT accounting A. VAT overview 1 The concept and characteristics of VAT 2 Taxpayers of VAT 3 The scope of VAT collection 4 The rate and rate of VAT levied 5 VAT reduction and exemption 6 VAT collection and management 7 Use and management of special VAT invoices  B. VAT calculation and tax declaration 1 The method of calculating VAT 2 Calculation of tax payable under the general tax calculation method 3 Calculation of tax payable under the withholding method 5 Calculation of tax withheld under the withholding method 5 Calculation of VAT  C. The basis of VAT accounting 1 Setup of general taxpayer VAT ledger accounts 2 The setup of the general taxpayer's "Tax payable - VAT payable" detailed account 3 Setup of small-scale taxpayer ledger accounts D. Accounting Treatment of VAT input Tax and its transfer out 1 Accounting for input VAT amounts 2 Accounting treatment of VAT output tax 1 Accounting treatment of VAT output tax 1 Accounting treatment of VAT output tax under the general sales method 2 Accounting for output tax under the advance receipts method		①The emergence and development of tax accounting
4 The relationship between tax accounting and financial accounting  5 Model of tax accounting  6 Tax accounting documents, Bookkeeping management  II. VAT accounting  A. VAT overview  1 The concept and characteristics of VAT  2 Taxpayers of VAT  3 The scope of VAT collection  4 The rate and rate of VAT levied  5 VAT reduction and exemption  6 VAT collection and management  7 Use and management of special VAT invoices  B. VAT calculation and tax declaration  1 The method of calculating VAT  2 Calculation of tax payable under the general tax calculation method  3 Calculation of tax payable under the withholding method  5 Calculation of tax withheld under the withholding method  5 Calculation of VAT  C. The basis of VAT accounting  1 Setup of general taxpayer VAT ledger accounts  2 The setup of the general taxpayer's "Tax payable - VAT payable" detailed account  3 Setup of small-scale taxpayer ledger accounts  D. Accounting Treatment of VAT input Tax and its transfer out  1 Accounting for input VAT amounts  2 Accounting treatment of VAT output tax  1 Accounting treatment of Output tax under the general sales method  2 Accounting treatment of output tax under the general sales method		②The concept and characteristics of tax accounting
SModel of tax accounting (Tax accounting documents, Bookkeeping management)  II. VAT accounting A. VAT overview  ①The concept and characteristics of VAT ②Taxpayers of VAT ③The scope of VAT collection ④The rate and rate of VAT levied ⑤VAT reduction and exemption ⑥VAT collection and management ⑦Use and management of special VAT invoices  B. VAT calculation and tax declaration ①The method of calculating VAT ②Calculation of tax payable under the general tax calculation method ③Calculation of tax withheld under the withholding method ③Calculation of tax payable on imported goods ⑥Tax declaration of VAT  C. The basis of VAT accounting ①Setup of general taxpayer VAT ledger accounts ②The setup of the general taxpayer's "Tax payable - VAT payable" detailed account ③Setup of small-scale taxpayer ledger accounts  D. Accounting Treatment of VAT input Tax and its transfer out ①Accounting for input VAT amounts ②Accounting treatment of VAT output tax ①Accounting treatment of output tax under the general sales method ②Accounting for output tax under the advance receipts method		③Objects and tasks of tax accounting
© Tax accounting documents、Bookkeeping management  II. VAT accounting  A. VAT overview  ① The concept and characteristics of VAT ② Taxpayers of VAT ③ The scope of VAT collection ④ The rate and rate of VAT levied ⑤ VAT reduction and exemption ⑥ VAT collection and management ⑦ Use and management of special VAT invoices  B. VAT calculation and tax declaration ① The method of calculating VAT ② Calculation of tax payable under the general tax calculation method ③ Calculation of tax payable under the simplified tax calculation method ④ Calculation of tax withheld under the withholding method ⑤ Calculation of tax payable on imported goods ⑥ Tax declaration of VAT  C. The basis of VAT accounting ① Setup of general taxpayer VAT ledger accounts ② The setup of the general taxpayer's "Tax payable - VAT payable" detailed account ③ Setup of small-scale taxpayer ledger accounts  D. Accounting Treatment of VAT input Tax and its transfer out ① Accounting for input VAT amounts ② Accounting treatment of VAT output tax ① Accounting treatment of output tax under the general sales method ② Accounting for output tax under the advance receipts method		(4) The relationship between tax accounting and financial accounting
II. VAT accounting A. VAT overview  ①The concept and characteristics of VAT ②Taxpayers of VAT ③The scope of VAT collection ④The rate and rate of VAT levied ⑤VAT reduction and exemption ⑥VAT collection and management ⑦Use and management of special VAT invoices  B. VAT calculation and tax declaration ①The method of calculating VAT ②Calculation of tax payable under the general tax calculation method ③Calculation of tax payable under the withholding method ⑤Calculation of tax withheld under the withholding method ⑤Calculation of tax payable on imported goods ⑥Tax declaration of VAT  C. The basis of VAT accounting ①Setup of general taxpayer VAT ledger accounts ②The setup of the general taxpayer's "Tax payable - VAT payable" detailed account ③Setup of small-scale taxpayer ledger accounts  D. Accounting Treatment of VAT input Tax and its transfer out ①Accounting for input VAT amounts ②Accounting for changes in input tax deductions  E. Accounting treatment of VAT output tax ①Accounting treatment of vander the advance receipts method		⑤Model of tax accounting
A. (3)Accounting treatment of output tax under the installment method		-
		③Accounting treatment of output tax under the installment method

①tax system

F.	Accounting treatment of VAT remission and payment
	①Accounting for direct VAT deductions
	②Accounting for immediate VAT refund
	3 Accounting for VAT collection before refund, first collection and then
	refund
G.	Accounting treatment of value-added tax under simple tax calculation
	method
	(1) General taxpayers adopt the simplified tax calculation method for VAT accounting
	②Accounting for the purchase of goods and the receipt of taxable services
	and services by small-scale taxpayers
	3 Accounting for the sale of goods or provision of taxable services by
	small-scale taxpayers
III.	Consumption tax accounting 4
A.	Overview of consumption tax
	①Concept and characteristics of consumption tax
	②Taxpayers of consumption tax and the scope of taxation
	③Consumption tax items and rates
B.	Calculation of consumption tax and tax declaration
	①Consumption tax calculation method
	2 Calculation of consumption tax payable in the production and sales
	process
	3 Calculation of consumption tax payable during commissioned processing
C.	Accounting treatment of consumption tax
	①Setup of ledger accounts
	②Accounting for the production and sale of taxable consumer goods
	3 Accounting for deposits for taxable consumer packaged goods
IV.	Tariff accounting 4
A.	Tariff overview
	①The concept of tariffs
	②The role of tariffs
	③Features of tariffs
В.	Tariff calculation and tax declaration
	1) The method of calculating customs duties
	②The customs value of the customs duty
	③Calculation of the amount of customs duty payable
C.	Accounting for customs duties
	①Accounting for customs duties on import operations
	2 Accounting for customs duties on export operations
V.	Accounting for export tax rebate (exemption) 4
A.	Overview of export tax rebate (exemption)
	①Overview of export tax refund (exemption).
	②The basic principle of export tax rebate (exemption).
	③The basic policy of export tax rebate (exemption).

В.	Export tax rebate (exemption) calculation and tax declaration			
	1) The basis for calculating VAT refund (exemption).			
	②Calculation of export VAT refund (exemption).			
	3 Calculation of return (exemption) consumption of exported g	oods		
C.	Accounting treatment of export tax refund (exemption)			
	①Accounting treatment of VAT refund (exemption) of exp	ort goods of		
	foreign trade enterprises			
	②Accounting treatment of export VAT refund (exemption) for	or production		
	enterprises			
	3 Accounting for export tax refund (exemption) consumption ta	ıx		
VI.	Enterprise income tax accounting	14		
A.	Overview of enterprise income tax			
	①The concept and characteristics of corporate income tax			
	②The evolution of China's corporate income tax system			
	③Taxpayers of corporate income tax			
B.	The enterprise income tax calculation and tax return			
	(1)Calculation of taxable income			
	②Determination of total revenue			
	③Determination of deduction items			
C.	Accounting treatment of enterprise income tax			
	①The emergence and development of corporate income tax accounting			
	②Corporate income tax accounting objectives	C		
	③The nature of corporate income tax			
VII.	Individual income tax accounting	4		
A.	Overview of individual income tax			
	①The concept and characteristics of personal income tax			
	②Establishment and development of personal income tax			
В.	Calculation and tax declaration of individual income tax			
	①Calculation of taxable income			
	②Calculation of the tax payable on personal income tax			
C.	Accounting treatment of individual income tax			
	①Accounting treatment of enterprise withholding and payment of personal			
	income tax
